Professional Summary

Computer Science and Engineering graduate with strong knowledge of Computer Science Fundamentals, Data Structures Algorithms, Object-Oriented Programming (OOP). Proficient in Java,MySQL and Full-Stack Web Development. Hands-on experience in developing web applications.Quick learner with strong analytical and problem-solving skills seeking an opportunity to contribute to software development and business applications

Technical Skills

Languages: Java,Python, JavaScript, SQL

Backend Development: Node.js, REST API, API Development

Frontend Development: React.js, HTML, CSS, Bootstrap, JavaScript

Databases: MySQL,PostgreSQL, MongoDB

Tools Platforms: Git, GitHub, Postman, VS Code, Streamlit

Core Concepts: Data Structures Algorithms, DBMS, OOP, Operating Systems, Computer Networks

Projects

Computer Vision-Based Intelligent Traffic Monitoring & Emergency Vehicle Detection System Live Demo — [GitHub](#)

Java, OpenCV, YOLOv8, PyTorch, Streamlit, MySQL

- Developed a Computer Vision-based traffic monitoring system for real-time vehicle detection, classification, and tracking.
- Processed traffic video datasets through frame extraction, image preprocessing, and dataset preparation for machine learning workflows.
- Trained and evaluated YOLO-based object detection models on annotated datasets to identify vehicles and emergency vehicles.
- Implemented real-time multi-object tracking and vehicle counting using OpenCV and Norfair.
- Conducted model evaluation using Precision, Recall, F1-Score, and Detection Accuracy metrics.

AI Interview Simulator [Live Demo](#) — [GitHub](#)

React.js, Node.js, MongoDB, JavaScript, AI APIs

- Developed an AI-powered interview preparation platform that generates personalized interview questions based on resumes and target job roles.
- Integrated AI models to analyze candidate responses and provide automated performance feedback.
- Implemented resume parsing, response processing, and interview analytics.
- Designed REST APIs for authentication, interview management, and performance tracking.

Internship Experience

Web Developer Intern — Bharat Intern

Dec 2023 – Feb 2024

- Developed responsive web applications using HTML, CSS, JavaScript, and Bootstrap.
- Performed testing, debugging, and feature validation to improve application quality.
- Collaborated with team members to enhance functionality and user experience.

Education

Bachelor of Technology (Computer Science and Engineering)

Teegala Krishna Reddy Engineering College

2021 – 2025

CGPA: 8.02/10

Certifications

- Fraud Detection in Financial Payments – JPMorgan Chase & Co. Job Simulation
- Cybersecurity Analyst Job Simulation – Tata Group
