Professional Summary

Computer Science and Engineering graduate with knowledge of Java, JavaScript, Data Structures & Algorithms, DBMS, SQL, and Full-Stack Web Development. Currently building applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Experienced in developing responsive web applications, REST APIs, and database-driven solutions. Strong problem-solving skills with hands-on experience in academic and internship projects. Seeking an entry-level Software Developer, Full-Stack Developer, or Web Developer role.

Technical Skills

Programming Languages: Java, JavaScript, SQL

Frontend: HTML5, CSS3, Bootstrap, React.js

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Projects

IRCTC Railway Reservation Web Application-Clone (In Progress) *React.js, Node.js, Express.js, MongoDB*

- Developing a full-stack railway reservation system inspired by IRCTC.
- Building responsive user interfaces using React.js.
- Creating RESTful APIs using Node.js and Express.js.
- Implementing train search, booking management, user authentication, and booking history modules.
- Using MongoDB for storing user, train, and reservation data.
- Managing project versions using Git and GitHub.

AI-Based Traffic Prediction System

Java, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a traffic prediction system to forecast congestion and improve traffic flow.
- Built backend modules using Java for traffic data processing and prediction.
- Designed responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Integrated MySQL database for storing and managing traffic datasets.
- Performed preprocessing of traffic parameters including vehicle count, time, and location data.
- Improved operational efficiency through automated traffic analysis.

Internship Experience

Web Developer Intern — Bharat Intern

Dec 2023 – Feb 2024

- Developed a responsive portfolio website using HTML, CSS, JavaScript, and Bootstrap.
- Implemented interactive UI components and responsive layouts.
- Enhanced website performance and mobile compatibility.
- Debugged frontend issues and improved overall user experience.

Education

Bachelor of Technology (Computer Science and Engineering)

Teegala Krishna Reddy Engineering College

2021 – 2025

CGPA: 8.0 / 10

Certifications

- AI Engineering Certification – OneRoadmap
- Fraud Detection in Financial Payments – JPMorgan Chase & Co Job Simulation
- Cybersecurity Analyst Job Simulation – Tata Group

Achievements

- Solved 50+ coding problems on LeetCode covering Arrays, Strings, Recursion, and DSA concepts.
- Built multiple academic and web development projects using Java and JavaScript technologies.
