PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science undergraduate pursuing hands-on experience in IT support and application packaging. Strong foundation in Windows operating systems and software installation processes, complemented by good analytical and troubleshooting abilities. Familiar with scripting languages such as PowerShell, Batch, and Python

EDUCATION

B.Tech in Computer Science and Engineering-Teegala Krishna Reddy Enginnering college- **8.0 Cgpa** May 2025

Intermediate-Ttwries-**95%** April 2021

SSC-TS Model School-**9.0 Cgpa** April 2019

Academic Projects

Automated Web Application Testing Framework using Selenium & Python

- Installed and configured Selenium WebDriver, Python, PyTest, and MySQL for automated testing across multiple environments
- Developed and executed automation scripts for functional testing and deployment validation
- Debugged installation, configuration, and compatibility issues, documenting all procedures for team use
- Performed test debugging, error resolution, and detailed test reporting

AI-Based Traffic Prediction System

- Developed an AI-powered system to forecast urban traffic congestion using Python, Flask, Machine Learning, Google Maps API
- Automated environment and dependency installation using scripts for rapid setup and scalability

TECHNICAL SKILLS:

- **Operating system:** Windows software installation, configuration, basic troubleshooting
- **Scripting & Automation:** PowerShell, Batch, and Python scripting for installation automation
- **Testing &Validation:** Manual and automated testing of packaged applications, validation
- **Testing tools :** Selenium WebDriver, PyTest, JUnit, TestNG
- **IT Practices:** Follows compliance, version control, and security principles in all technical work
- **Version Control:** Git, GitHub

Soft Skills:

- Excellent communication and teamwork in diverse, multicultural settings
- Strong attention to detail and structured documentation
- Eagerness to learn new technologies and troubleshoot installation issues

Language Skill:

English Advanced(Written and Spoken)

Certification:

- Fraud Detection in Financial Payments – JPMorgan Chase & Co.
- AI Engineering Skill Certificate – oneroadmap
- Cybersecurity Analyst Job Simulation – TATA
