Professional Summary

Computer Science and Engineering graduate with hands-on experience in HTML, CSS, JavaScript, and REST API development. Familiar with web crawling concepts, URL structure analysis, and SEO fundamentals including indexing, metadata, keyword relevance, and crawler behavior. Experienced in analyzing website content, validating data quality, and documenting technical workflows. Seeking opportunities in Web Content Analysis, SEO Quality, Digital Operations, or related domains where analytical thinking and attention to detail can create measurable impact.

Technical Skills

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap, React.js

Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, MySQL

Data & Analysis: Regular Expressions (Regex), URL Structure Analysis, Web Content Evaluation, BFS, DFS

SEO & Web Tools: Indexing, Metadata Optimization, Keyword Analysis, Crawler Behavior, Chrome DevTools, Postman, Browser Extensions

Core CS Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Version Control: Git, GitHub

Projects

IRCTC Railway Reservation System Clone

React.js, Node.js, Express.js, MongoDB

- Designed URL routing architecture for train search, booking, and authentication modules using REST conventions.
- Built and documented RESTful APIs while analyzing request and response structures to maintain data consistency.
- Designed MongoDB schemas and evaluated data integrity across collections.
- Used Chrome DevTools and Postman for debugging API responses, inspecting network traffic, and validating HTML/CSS rendering.
- Maintained project version history using GitHub with structured documentation and commit tracking.

AI-Based Traffic Prediction System

Java, MySQL, HTML, CSS, JavaScript

- Processed and evaluated traffic datasets to identify trends, anomalies, and prediction patterns.
- Developed responsive dashboards for traffic forecasting with cross-browser compatibility.
- Performed quality checks on 1,000+ traffic records to improve reporting accuracy.
- Documented preprocessing workflows, system behavior, and reporting logic for reproducibility.

Internship Experience

Web Developer Intern

Bharat Intern — Dec 2023 – Feb 2024

- Built a responsive portfolio website using HTML, CSS, JavaScript, and Bootstrap.
- Resolved 12+ UI and rendering issues through DOM inspection and CSS debugging using Chrome DevTools.
- Created technical documentation and component-level UI guidelines.
- Applied semantic HTML and SEO-friendly meta tags including title, description, and viewport settings.

Education

Bachelor of Technology (Computer Science and Engineering)

Teegala Krishna Reddy Engineering College
2021 – 2025

CGPA: 8.0/10

Certifications

- JPMorgan Chase & Co. Job Simulation – Fraud Detection in Financial Payments
- Tata Group Job Simulation – Cybersecurity Analyst
- OneRoadmap – AI Engineering Certification

Key Strengths

- Solved 80+ LeetCode problems focusing on BFS, DFS, Regex, recursion, and string processing.
- Strong analytical thinking with experience in web content evaluation and structured data validation.
- Skilled at technical documentation, reporting, and workflow analysis.
- Comfortable working with website structures, URL analysis, debugging tools, and SEO fundamentals.
- Strong attention to detail with a logical and problem-solving mindset.
