Professional Summary

Computer Science and Engineering graduate with hands-on experience in Full Stack Software Development through internships, academic projects, and personal projects. Strong foundation in JavaScript, React.js, Node.js, Express.js, RESTful APIs, MongoDB, MySQL, and database-driven applications. Experienced in building responsive web applications, backend services, authentication systems, API integrations, and data models. Familiar with Git, deployment workflows, software engineering fundamentals, and client-server architecture. Passionate about learning new technologies and developing scalable software solutions. Currently expanding knowledge in TypeScript, AWS Fundamentals, CI/CD concepts, Docker, and System Design.

Technical Skills

Languages: JavaScript, Java, SQL

Frontend: React.js, HTML5, CSS3, TailwindCSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, API Integration

Databases: MongoDB, MySQL,

Tools: Git, GitHub, Postman, VS Code

Currently Learning: TypeScript, AWS Fundamentals, CI/CD Concepts,

Projects

IRCTC Railway Reservation System (MERN Stack)

- Developed a full-stack railway reservation platform using React.js, Node.js, Express.js, and MongoDB.
- Built responsive user interfaces and designed RESTful APIs for train search, booking, cancellation, and booking history.
- Implemented JWT-based authentication and authorization mechanisms.
- Designed MongoDB schemas and integrated frontend and backend services through API-driven architecture.

AI-Based Traffic Prediction System

- Developed a data-driven traffic prediction application using Java, MySQL, HTML, CSS, and JavaScript.
- Analyzed traffic datasets and built dashboards for monitoring and visualization.
- Managed traffic records using MySQL and applied predictive techniques for congestion forecasting.

Internship Experience

Web Developer Intern — Bharat Intern

Dec 2023 – Feb 2024

- Developed responsive web applications using HTML, CSS, JavaScript, and Bootstrap.
- Built reusable UI components, optimized frontend performance, and improved cross-browser compatibility.
- Worked with Git-based workflows, debugging tools, and modern web development practices.

Education

Bachelor of Technology (Computer Science and Engineering) Teegala Krishna Reddy Engineering College 2021 – 2025 CGPA: 8.0 / 10

Certifications

- Fraud Detection in Financial Payments – JPMorgan Chase Co. Job Simulation
- Cybersecurity Analyst Job Simulation – Tata Group
